ARISTO™

ARÍSTO

Train System

This Top-Mounted system is the best for space separation and zoning when ceiling support is strong. As these doors stack themselves in front of each other, when opened, to give a wide-open look and feel.

The new telescopic rail system provides seamless movement for the doors.

ARÍSTO

Fixed System

The system is applicable for space separation and zoning. It's a very crucial element as every moveable element needs a fix element to create the desired effect or zone.

They can be setup like glass walls and they are blended in with any of our signature opening mechanisms as required.

partition is fixed to the floor and the ceiling, can be easily mounted without tampering the walls and are easily dismantled. It is a safe, practical and functional temporary wall.
